Email As A Service In The Cloud

1 Concept Of Public Cloud Based Mail Services

Concept Of Cloud Based Mail Services

Somebody else (A Service Provider):

- Somebody Else Has Developed and Configured Everything For You
- Somebody Else Is Operating Everything For You
- Economies Of Scale Makes It All Very Cheap

You Just Need To:

- Configure The Parameters That They Allow You To Configure
- You Have Access To The Logs And Information That The Service Provider Exposes

Ramifications Of This Arrangment:

- The Service Provider Is In Full Control Of Your Emails
- You Have To Do Very Little And It All Runs Reliably
- You Are Limited To What Is Provided That Can Be More Than Adequate
- There Is Not Transparancy and No Control

2 Private Cloud Mail: A Good Web Interface Over Mail Management

Private Cloud Mail: A Good Web Interface Over Mail Management
